

A. List of SNs of the dataset

Category	SNs
meta-text	<i>Article, book, dissertation, novel, paper, para-study, plot, research, story, study, thesis, word, work</i>
Fact	<i>aspect, case, category, challenge, character, choice, component, concept, conflict, construct, content, conundrum, core, criterion, culture, definition, description, design, detail, deviation, device, dimension, direction, duty, effect, effort, element, energy, enlightenment, evidence, example, exploration, fact, factor, failure, finding, formula, framework, function, gap, generation, genre, group, habit, hypothesis, impact, implication, indicator, index, issue, key, kind, knowledge, limitation, manner, masterpiece, material, meaning, mechanism, methodology, model, notion, object, paradigm, part, pattern, perspective, picture, point, predictor, premise, principle, problem, questionnaire, reminder, responsibility, role, section, sentence, set, shape, sign, slogan, something, spotlight, standard, stimulus, struggle, subcategory, surprise, system, target, task, technique, tendency, term, theme, theory, thing, tool, topic, trait, trend, trial, type, variable</i>
Circumstance	<i>approach, area, circumstance, condition, context, country, day, dilemma, environment, field, means, measure, method, moment, phenomena, path, period, phase, phenomenon, procedure, process, scale, scene, session, setting, situation, society, stage, step, time, way, world</i>
Act	<i>act, action, activity, attempt, change, endeavor, experiment, interference, investigation, observation, processing, test</i>
Relation	<i>comparison, cycle, difference, end, pair, reason, relation, result, source, summary, synonym</i>
Locution	<i>analysis, answer, comment, communication, conclusion, controversy, denying, dialogue, elaboration, explanation, illustration, inference, initiative, instruction, narrative, paradox, promise, proposition, question, response, review, rumor, saying, statement, suggestion</i>
Mode	<i>ability, capacity, chance, feasibility, incapability, necessity, need, opportunity, possibility</i>
Quality	<i>advantage, characteristic, difficulty, diversity, feature, imbalance, innovation, intelligibility, nature, novelty, personality, quality, shortcoming, significance, strength, unbalance, value</i>
Cognition	<i>aim, ambition, assumption, belief, comprehensibility,</i>

Objective

Subjective

confirmation, courage, decision, desire, doubt, enthusiasm, expectation, goal, idea, impression, impulse, insight, intention, interest, lament, misunderstanding, objective, opinion, order, pity, preference, presumption, purpose, sake, sense, thought, thrust, view, viewpoint, wish, wonder

B. List of premodifiers of the dataset

Classification	Premodifiers
Deictic	<i>such, these, this, those</i>
Restrictive	<i>a lot, all, certain, every, few, final, first, four, less, limited, little, main, many, more, much, one, only, second, several, some, substantial, third, three, two</i>
Active	<i>active, dynamic, emerging, evolving, growing, interactive A's, author's, Bergson's, B's, Collexeme, Dreiser's, Gordon-Salant's, Harding's, hearer's, her, his, individual's, its, Jane Austen's, learner's, mathematical, multivariate statistical, my, our, pedagogical, psychological, reader's, Ren's, Salinger's, students', the native speaker's, their, theoretical, transcultural, young female readers'</i>
Classifying	<i>above, above-mentioned, another, different, following, former, further, most relevant, next, other, previous, primary, related, remaining, same, similar, subsequent, uniform</i>
Descriptive	<i>a priori, aesthetic, anticipated, attractive, basic, bilateral, clause mate, cognitive, collaborative, commercial, common, communicative, conceptual, conflicting, core, corpus-based, cultural, easiest, effective, empirical, expected, experimental, eye-tracking, fluent, forced-choice, Gothic, heuristic, human, ideal, implied, initial, internal, language, language acquisition, lexical selection, long, methodological, moral, more detailed, more diversified, mother tongue sharing, naturalistic, new, open-ended, optimal, oral translation, original, potential, pragmatic, preliminary, process, reaction, research, selection, simple, social, sound, statistical, strenuous, strong, stronger, systematic, target, teaching, test, testing, the most commonly used, the most effective, the most widely used, translation recognition, typical, unique, various, vicious, visual, visual word eye-tracking, wrong</i>
Evaluative	<i>appropriate, astonishing, best, contradictory, convincing, critical, essential, fundamental, futile, good, great, important, incompatible, ingrained, interesting, key, most important, necessary, perfect, principal, reasonable, saddest, significant, special, surprising, the more explicit, the most important, The most straightforward, tragic, troublesome, urgent, useful, valuable</i>

Objective

Subjective

Compound

above two, active and conscious, Andros's own, another effective, another famous, artificial grammar learning, B's implied, different communicative, efficient and effective, first noticeable, following alternative, following different, following four, following null, following research, following research, following three, following two research, four basic, four commonly used, four crucial, four main, four writing, full access, important empirical, intuitive visual, its basic, its main, its operation, its ultimate, Kroeber's cultural landscape, least possible, more micro and specific, multiple comparisons, pretty significant, several assumption tentative, several main, significant gender, social symbolic, some basic, speaker's communicative, spectacular and painful, substantial psycholinguistic, the first three, the following three, their original, their own research, their prior, these above, These agreement strategy, these consistent, these contrary, these follow, these four, these two, this additional, this learning, this new, this short, This traditional, three important, two calculation, two classical, two contrasting, two dependent, two important, two independent, two main, two practice, two semantic, unexpected finding, various narrative
